Description

Provide a short description of the event and its activities.

The working team composed of all project partners, following the input of University of Florence, lead beneficiary of this WP, defined common lines during an online meeting that took place on the 16th January 2023.

The 6 groups of young people (Bologna-Modena; Florence, Naples; Braga; Figueira da Foz and Krakow) focused on:

- carrying on the action-research activities: reflecting and re-elaborating the historical contents collected in relation to the holocaust and the history of Roma people;
- thinking about a project proposal (educational and engaging) for a wider target group of youngsters (groups of adolescents Roma and not Roma).
- analysing the documentation, choosing the materials to build the trama of artistic events and to implement website/webdoc (at least 2h training).

Training activities on how to catalogue and choose the material for each group, took place according to the table below:

Florence group (8 people) lead by CAT and University of Florence	26/06/2023	3 hours
Polish group (8 people) lead by Stowarzyszenie Romow w Polsce	05/06/2023	8 hours
Naples group (8 people) lead by Chi rom e chi no	27/04/2023 04/05/2023 08/06/2023	9 hours (3 hours for each meeting)
Bologna/Modena group (8 people) lead by Opengroup and University of Bologna	29/06/2023	6 hours
Braga group (6 people) lead by ACM and University of Minho	04/05/2023	3 hours
Figueira da Foz group (6 people) lead by Ribaltambicao	04/05/2023	3 hours
Total		32 hours of training for 6 groups

The action research realized by the different groups, produced:

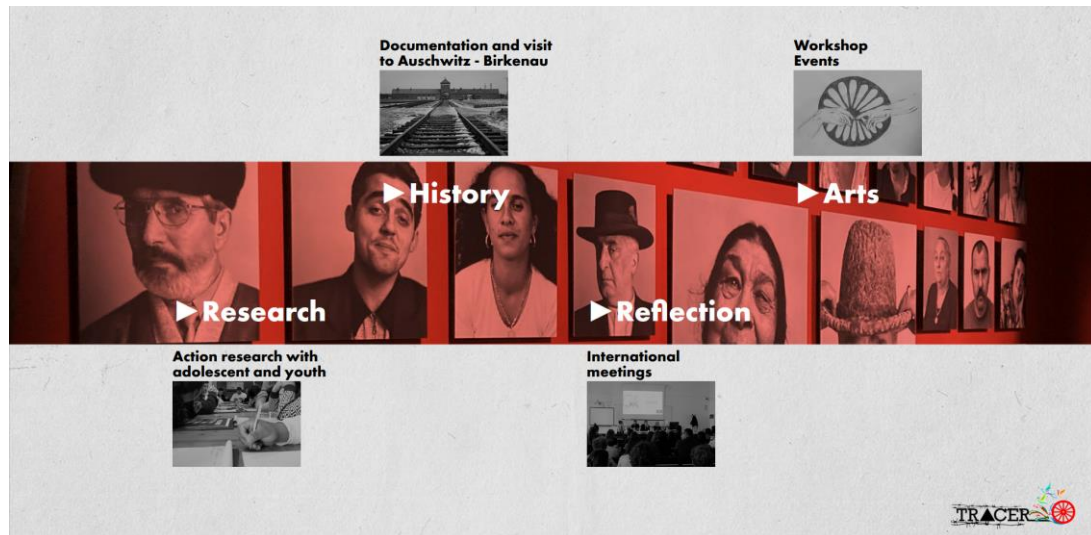

- an international bibliographical review with a series of abstracts of the main historical texts examined (realized by the Portuguese group);
- some online sources about Roma history;
- a bibliography of useful materials (books, sites, open access resources...) in Italian;
- a historical overview of Roma history produced by the Polish group;

Moreover, in order to spread and give visibility to material and resources collected by the different groups, the University of Bologna is creating a multimedia documentary (webdoc)

that will be set up during these months and connected to the project website (<https://www.tracerproject.eu/>).

The Webdoc area will include various multimedia materials (video clips, photos, documents, etc.) that will be catalogued according to four categories: Research, History, Reflection, Arts. In each area, it will be possible to read/view the materials and the activity done by each partner and by each group of young people.

Here is a screenshot of the current version of the webdoc, which is, however, under construction.
