The action research realized by the different groups, produced:

- some young leaders' **written reflections** about the journey in Poland and the visit to Auschwitz-Birkenau (what the experience meant for young people from a personal level, a professional level and a relational level);
- some **photos and short videos** taken by the young people themselves during the travel, journey, visits, workshops, and share moments. Some of these contents are published on the **Instagram page** that they created for the project @tracerproject

All documentation collected will soon be available in a dedicated area of the project website (multimedial documentary - webdoc).

Following their common experience in Poland, an international video call was organised in July in which the young people were able to meet again and exchange some impressions of their trip and their recent shared experience in Poland. The very first impressions of the participants were a total satisfaction and a definitely positive feedback, beyond the happiest expectations.
